DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the mold closure comprises an auxiliary core thread and primary core thread formed on an outer wall (claim 24) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Objections

2. Claims 23 and 24 are objected to because of the following informalities:

In claim 23 and 24, line 2, "a molded closure" should be -- said molded closure--.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claim 24 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not

described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. .

In claim 24, a molded closure comprises an auxiliary core thread and a primary core thread formed an outer wall of the closure is not supported in the specification.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Schmalz (1,844,422) or Komendowski (3,785,045).

Schmalz discloses, in figs. 1-3, a molded closure having an auxiliary helical thread 4 having a first thread depth and a first pitch, and a principal thread 2 having a second thread depth and a second pitch; the second thread depth and the second pitch are greater than the first thread depth and the first pitch; the closure sidewall comprising a first tier and second tier, wherein the auxiliary thread disposed on first tier and the principal thread disposed on the second tier.

Komendowski discloses, in fig.2, a molded closure having an auxiliary helical thread 16 having a first thread depth and a first pitch, and a principal thread 13 having a second thread depth and a second pitch; the second thread depth and the second pitch are greater than the first thread depth and the first pitch; the
